Our goal at The Pet Vet is to provide the highest quality of care to our patients and to provide peace of mind to their owners. Whether it's dogs, cats, birds, or pocket pets, we want to make sure that you are satisfied with every aspect of your pet's care.

Our team is committed to providing the best care for your animals, and we are willing to do whatever we can to make you and your pet comfortable. We provide a wide variety of services including preventive medicine, dentistry, bloodwork, radiology, ultrasound, nutritional assessments, and both routine and specialty surgery. We have the experience to care for all of your pets.

To realize our mission of providing high quality care, we have a number of daily appointments available for both wellness visit and sick pets. To accommodate you, we also take walk-in appointments because we know how hectic life can be. We will always answer the phone, and you can call our line after hours to speak with one of our veterinarians. We are a small clinic and we will do what we can to make sure you see the same doctor every visit.

We now accept PetCredit, a third party credit line to help qualified clients pay for veterinary care at no interest. We also have other payment plans available to ensure that you can get the veterinary care that you deserve at a time that is right for you.

## About Us

Dr. Ula was born and raised in Rio Verde, CA and then moved to Rivertown. She dreamed of being a veterinarian since she was a child, and earned her degree from Rivertown University in 2004. She joined The Pet Vet directly after graduation, and bought the clinic in 2015. She's excited to see how much the clinic has grown over the years, and looks forward to continuing its legacy. Dr. Ula and her husband Vernon welcomed their first child, Willow, into the world in 2013. Willow comes up to the clinic to visit on the weekends, and already looks like a future vet in the making!

Dr. Quinn is from Cheyenne and went to veterinary school at Rivertown University. He graduated in 2008, joined The Pet Vet in 2009, and enjoys sharing his passion for internal medicine and ophthalmology. He has an 'internet-famous' cat named Polka, and a leopard gecko named Dot.

Dr. Ronchitsky

Bio coming soon.

Dr. Harnett

Bio coming soon.

Jeffrey joined The Pet Vet in 2016. He is a licensed veterinary technician, and graduated from St. Charles State College in 2008. Jeffrey loves to be outdoors in his free time and will often bring his dog, Hunter, camping with him.

Kim is from Borden and moved to Rivertown in 2012 to earn her degree as a registered veterinary technician. She has been a veterinary technician at The Pet Vet since 2014. Kim spends her free time with her dog, Clay, hiking and biking the nearby trails. She has completed 3 marathons, and is training for her first triathlon.

Gina worked at a veterinary clinic in California for 5 years before joining The Pet Vet in 2015 as our Practice Manager. Gina keeps our clinic running behind the scenes to ensure that our clients and patients are happy. When she isn't at The Pet Vet, Gina enjoys ice skating and going to the movies. Gina has two beagles, Linus and Lucy.

## Services

### SURGERY

The Pet Vet is proud to be one of the few veterinary hospitals in the Rivertown area to offer laser surgical services, starting with our new state-of-the-art SL-4980 surgical CO2 laser. Our laser utilizes 10,600nm Lumos laser technology to optimize hemostasis at a thin extinction depth. This lets us perform routine surgical procedures while reducing pain and discomfort for our patients.

### DENTISTRY

The Pet Vet provides dental cleanings for our patients to reduce incidence of periodontitis and bad breath. We use a DentalDog Supreme-FN-6500 ultrasonic scaler to remove plaque and tartar build-up. With a 30,000-rpm rotating handpiece, our equipment provides the best possible care for your pets.
